

Makendi Evaporated Milk

DESCRIPTION:

Evaporated milk, known as unsweetened condensed milk, is a shelf-stable canned milk product with about 60% of the water removed from fresh milk. The product takes up half the space of its nutritional equivalent in fresh milk. When the liquid product is mixed with a proportionate amount of water, evaporated milk becomes the rough equivalent of fresh milk.

PACKING: Tin can and paper label. 410gx48cans, 180gx48cans, 170gx48cans.

SHELF LIFE: 12 months in unopened original packaging.

SPECIFICATIONS:

Parameter	Specifications
Energy (kcal)	144 per 100g
Total solids	28g per 100g
Total fat	8.0g per 100g
Protein	6.0g per 100g
Carbohydrate	12g per 100g
Microbiological Analysis	
TPC (cfu/g)	≤ 10
Coliform (cfu/g)	≤1
Yeast (cfu/g)	≤1
Mould (cfu/g)	≤1

APPLICATIONS: It is added in brewed tea and coffee. Can be used for desserts in bakeries, chocolatiers, sweet shops, etc. It can also be mixed with water at home in order to restore it back to the original state of regular milk.
